

SJ“Internship Program for International Students” of École Polytechnique (Paris, France)

This program is aimed at supporting and consolidating the collaboration between École Polytechnique and a selected group of international partners, as well as supporting scientific collaborations.

With this objective, the Internship Program for International Students gives undergraduate and graduate students the opportunity to carry out a **3 to 6-month internship** in laboratories of École Polytechnique.

The Program is open to students at the following levels:

- Undergraduate: Bachelor's students in their 3rd or 4th year;
- Graduate : Master's students in their 1st or 2nd year;
- PhD students.

We kindly ask you to bring this opportunity to the attention of potential candidates within your institution.

All the relevant information about the program are available on our [website](#).

The candidates will have to choose subjects among the ones listed here [on our website](#), and then prepare the application documents by following the instructions given on this [page](#).

The application is done directly by the students via an on-line application.

Deadline - 20th of January 2020.

Для студентів ІІСА можливі напрями стажування:

COMPUTER SCIENCES		
Development of optimization algorithms for the turbines location problem within a water distribution network	Claudia D'Ambrosio	LIX01
The communication system for smart grid	Jiazi Yi	LIX02
Intelligent High Performance Computer Networks	Thomas Clausen	LIX03
A study of Low-Power Wide-Area Networks (LPWAN)	Jaizi Yi	LIX04
Routing protocol for mesh networks	Thomas Clausen	LIX06
MATHEMATICS, APPLIED		
Transportation cost information inequality with application to Langevin dynamics	Eric Moulines	CMAP01
Tomography and inverse scattering	Roman Novikov	CMAP02
