

World's leading Reinsurance Broker, Market leader in Central & Eastern Europe invites

Actuarial Analyst

to join their growing team in CEE region, based in Kiev office

Main tasks will include:

- Analyzing pricing, reinsurance structure optimization and risk quantification using non-life insurance mathematics and other statistical methods
- Perform technical analysis and get an innovative insight into insurance companies, their portfolios and reinsurance contracts
- Participating on (and maybe even managing some) actuarial projects.
- Creating stochastic financial models in Financial modelling tool
- You will be part of CEE team, closely working mainly with colleagues from Prague office

To apply for this offer, you should have:

- University degree in actuarial sciences (mathematics applied to insurance) on Masters or PhD level
- Excellent communication skills (written and verbal) in English
- Above-average computer skills (MS Office + other usual software)
- Strong application oriented technical and structural thinking
- Ability and willingness to learn and apply new methods, also find new solutions

Company can offer to you:

- Interesting and dynamic role in the global reinsurance industry
- Continuous international and local training program
- Competitive salary and attractive benefits package
